

Leo Boivin

Leo Boivin provides specialized consulting services on international aviation security issues for governments, airlines, airports, aviation consulting groups, and architecture and engineering firms. With more than forty years of experience in counterterrorism, aviation security, and intelligence operations, Leo is a recognized leader in international aviation security, having worked with more than 120 countries. He has worked closely with the International Civil Aviation Organization (ICAO) on the development of international aviation security standards and manuals, and programs for ICAO Member States on application of those standards. He also provides expert witness services and litigation resources for law firms in the area of aviation security.

Experience

For the U.S. Federal Aviation Administration (FAA), managed specialized staff reporting directly to FAA head of security for testing of international airline and airport security systems in over 40 countries; negotiated and directed joint aviation security testing projects with European governments.

Served as Acting Manager of the FAA Security office in Brussels, Belgium and as FAA liaison with the FBI Task Force on the 1989 Pan Am 103 bombing investigation.

Retired officer in the U.S. Air Force, specializing in counterintelligence and antiterrorism operations and programs in the Middle East and Europe, with extended international deployments and assignments.

Served as security design consultant for the 100% hold baggage screening system in all terminals of Singapore-Changi International Airport and rewrote the airport's security program.

Lecturer and course developer for the ICAO Jordan Centre for Aviation Security & Safety, ICAO's regional aviation security training center in Amman, Jordan

Prepared threat and vulnerability analyses for general aviation issues worldwide and in the U.S.

Worked on the team developing an aviation security master plan for Indonesia.

Developed and delivered an aviation security workshop for Association of Southeast Asian Nations (ASEAN) Chiefs of Police.

Serve as instructor and developer for an aviation security quality control seminar funded by the U.S. Transportation Security Administration (TSA) for developing countries

Developed a aviation security audit seminar for Asia-Pacific Economic Cooperation (APEC) organization.

Leo Boivin

Wrote an aviation security master plan for the civil aviation authority in Bulgaria.

Prepared threat and vulnerability analyses for general aviation issues worldwide and in the U.S.

Served as the chief lecturer on aviation security for the International Summits on Aviation Safety & Security, an FAA-funded university consortium project to train ministers of transport and senior aviation officials on aviation security matters.

Developed aviation security training programs for the U.S. State Department.

Managing complete revision of aviation security legislation, programs, and responsibilities for Uruguay.

Education

University of Southern California, 1982, Master of Arts.

Mount St. Mary's College (Maryland), 1973, Bachelor of Science.
